Hobbies & Interests

■ I enjoy activities that combine creativity, strategic thinking, and teamwork, such as gaming, escape rooms, and small-scale tech projects. I also have a strong interest in travel, cinema, and music, which I find both relaxing and inspiring.

Profile

Graduate of the Department of Informatics at Aristotle University of Thessaloniki, with a specialization in Networks, Communications, and Systems Architecture. Throughout my studies, I developed technical skills in programming, network management and security, as well as in the development and support of computing systems and applications.

I am passionate about technology and motivated by new challenges, with strong analytical thinking and the ability to perform effectively under pressure. I am seeking my first professional experience in the broader field of Information Technology, with particular interest in areas such as artificial intelligence, information security, and modern IT infrastructures. I am open to opportunities that will allow me to expand my knowledge and grow professionally through creative and innovative initiatives.

Education

BSc in Informatics

Mar 2025

Aristotle University of Thessaloniki– School of Sciences, Thessaloniki

Specialization: Networks – Communications – Systems Architecture.

Indicative coursework and topics covered:

- Core and advanced concepts in networking, systems architecture, and communication models.
- Internet applications and services with emphasis on protocols, security, and standardization.
- Management, monitoring, and protection of computing networks using modern security tools and techniques.
- Introduction to artificial intelligence and applications of intelligent systems.
- Algorithm analysis, data structures, and programming methodologies.

Technical Skills

I possess a solid technical foundation gained through my academic studies, along with a strong interest in further specializing in modern IT technologies. I am eager to grow professionally by taking on new challenges and learning through hands-on experience.

Programming & Application Development

- Introductory-level knowledge of C, C++, Java, and Python.
- Basic scripting in Lua and C# for simple applications.
- Familiar with HTML, CSS, and JavaScript for basic website creation.

Networking, Security & Infrastructure

- Fundamental understanding of system architecture and network protocols.
- Introductory knowledge of information security concepts and common threats.
- Ability to perform basic configuration and analysis of local networks.

Systems & Simulation

- Good understanding of operating systems (Windows and Linux – CLI usage).
- Experience with basic circuit simulation tools such as MATLAB and PSpice.
- Familiarity with FPGA programming (VHDL/Verilog – beginner level).

Tools & Environments

- PCB and hardware design using Altium Designer.
- Working knowledge of IDEs: Visual Studio, VS Code, Eclipse.
- Basic version control with Git.
- Proficiency in Microsoft Office (Excel, Word, PowerPoint).

Soft Skills

Teamwork & Collaboration: Comfortable working effectively in team settings, with respect and a spirit of contribution.

Time Management & Organization: Skilled in task prioritization and meeting deadlines consistently.

Attention to Detail: Diligent in task execution with strong focus on accuracy and quality.

Adaptability: Flexible in dynamic environments and eager to learn new technologies.

Stress Resilience: Ability to stay focused and productive under demanding conditions.

Communication: Clear verbal and written expression, with emphasis on active listening and constructive dialogue.

Critical Thinking & Creativity: Capable of analyzing problems and identifying practical, effective solutions.

Volunteering & Social Engagement

Event Staff – “Alexander the Great”

International Marathon, Thessaloniki

- Participated as a volunteer in the International Marathon “Alexander the Great,” assisting in the secure management of athletes' personal belongings.

Event Staff – Zero Festival

Zero Festival, Preveza

- Volunteered in the organization and logistics of the camping area during the 5th Zero Festival held in Filippiada, Preveza.

Youth Exchange Program Participant

Youthpass Certified, Cyprus

- Took part in an international youth mobility project focused on cultural diversity and intercultural dialogue.

First Aid Seminar

Rescue Training International, Thessaloniki

- Completed certified introductory training in basic first aid techniques.

Participant – Be There! Corfu Animation Festival

Corfu Animation Festival, Corfu

- Joined an educational workshop promoting awareness of disability through the art of animation.
